### Valdez

Pop 1,000. An incorporated city at the head of Prince William Sound, 320 miles due w (air line) of Skagway and 1,070 nw of Seattle, Wash. The discovery of a large number of free-milling gold quartz veins in the immediate vicinity of the town, and throughout a highly mineralized zone extending east and west from that point for a distance yet undetermined, has led to a large influx of mining men and prospectors from the States to Valdez. A large amount of development has been done on a number of the properties between Shoup Bay on the west of the town to Beaver Dam on the east, with exceptionally favorable results, and ore bodies running as high as \$10,000 to the ton have been uncovered. Local capital to the amount of \$300,000 has been invested in these mines and this amount has been largely augmented by investments made by mining men from the States who have been induced to invest by the extremely rich showings made. Plans are being matured for the installation of stamp mills on several of the properties and two customs mills will be erected for handling the ores of the district. Valdez has a magnificent land-locked harbor, which is open the entire year. Has two banks, express office (Wells Fargo Express Co), telephone system, electric lights, Congregational, Episcopal and Catholic churches, graded schools, a good hotel, numerous lodging houses, daily and 2 weekly newspapers, a saw mill, a planing mill, iron works and sheet metal works. It is the headquarters of the district Court for the third division and is the official residence of the officer in charge of the U S Military Telegraph and Cable System, which extends from Seattle to Valdez and from Valdez to Fairbanks and Nome. It is the headquarters of the Alaska Road Commission. It is the supply point for the Prince William Sound copper district, the copper and gold mines of the interior country. Gold shipments from this point are increasing annually. Valdez is reached in five days from Seattle and has a steamship service of seven steamers a month. Weekly launch to the Port Wells district.
