

Bethel Village Census 1930

This is the 1930 census of the village of Bethel, Enumeration District 4-14.

Enumerator Anna Martin was a schoolteacher in Bethel. She seems quite accurate in her list. So far all I've found about her is that she roomed with Nurse Lulu Heron.

I tried to duplicate the original census form with only a few changes. I left off the last question about being a veteran as it wasn't relevant to this region. Unlike the Family Search technique of adding the head of household's name on every line as if it was a last name rather than using a long dash I chose to copy the original form where the Native name was listed first then the English name. The Native name did not necessarily become the family name so I am using a long dash. It appears that if a person was White and born in Alaska their place of birth was Alaska. If a person was Native and born in Alaska most of the time their place of birth was assigned 'Eskimo'.

The first two columns are informative about housing situations. A few single people partner in one house and some unattached individuals are listed as lodgers or servants. Unlike the villages (compare Enumeration District 4-15) only one family lives in each house. It would be interesting to discover if the lodgers are in some way related to the family where they stay.

The order of enumeration should demonstrate family and friend connections. As Anna Martin walked through the village she would have gone house to house. The people in House 5 would likely be relatives or at least neighbors of House 6. If a map of Bethel before the riverbank erosion were found the house numbers could be superimposed on the map showing roughly the location of the houses.

I acknowledge my debt to Family Search. Be careful in following my typing or the Family Search transcript. If you have a question go directly to the original document. My biggest concern is the likely error in reading the names of the individuals. My eyes are no longer sharp. I welcome corrections.

Timothy Miller
Palmer (formerly Bethel), Alaska
